

Sample Registered Nurse

Summary of Qualifications

An experienced clinician in providing care to mothers and their newborns, I have provided additional value to the team at Maimonides by managing my team of nurses. By utilizing innate organizational skills, as well as having learned the importance of being culturally competent, I have developed expert case management skills required of an Assistant Nurse Manager. In my role as Preceptor for new staff, I interact with my colleagues with empathy and fairness, while upholding hospital protocols and core principals.
